ENVIRONMENTAL POLICY

Care for the environment is at the heart of Solutions SK Limited's business strategy, seeking at all times to reduce any adverse environmental impacts from its operations for the mutual benefit of the organisation and the community at large. This is implemented using the business planning process and effective management systems to control important environmental aspects and measuring performance against relevant objectives to deliver continual improvement.

Specifically this includes:

- Complying with environmental legislation and adopting industry best practice.
- Preventing pollution of the atmosphere, land, drainage and water courses at operational sites.
- Reducing the organisation's carbon footprint (fuel and energy usage).
- Conserving water resources, reducing consumption without compromising health and safety.
- Increasing use of products from sustainable sources.
- Increasing its use of recycled materials where appropriate.
- Minimising waste to landfill using recycling and other initiatives.
- Protecting and where possible, enhancing the environment around our sites.
- Minimising site odour, dust and noise nuisance, consulting and co-operating with residents affected when this is unavoidable.
- Having effective procedures for the disposal of hazardous and other waste materials.
- Using only licensed waste carriers and sites for the recycling and disposal of waste materials.
- Improving employee awareness of environmental issues and encouraging the sharing of experience and expertise.

Values:

Recognising that our sites are part of local communities, the organisation is sensitive to and takes account of residents and other stakeholder's environmental requirements when carrying out its operations. We will therefore respond positively to complaints, suggestions and opinions about the management of our sites and give high priority to environmental issues with a firm commitment to increasing sustainability, conserving valuable resources and preventing pollution.

SIGNED: _____

N. J. Cox
Managing Director
Solutions SK Limited
